A BEAUTY IN TROUSERS.

They are Preparing to Vote a. the April How the Beautiful Mrs. Miller Looks Attire Cut a in Ciothes Pin.

Washington Correspondence Savannah News, The rising star in the feminine firmaful young advocate of hygicula clothing. Mrs. Muler has just left Washington for New York, where she gives her lecture under distinguished auspices, thence proce ding to Calcago and other points west. The title of her discourse is in Itself striking: "Some Reasons Why Women of To Day Are Less Beautiful Than Mother Eve." I spent an hour or two the other day with this new light, and was greatly impressed with her in every way. Mrs. Jenness Miller is fortugate in having a husband who admires her reform in dress to such an extent that he thinks all women look "perfectly hideous" beside her. And he is right, they do. Her form is exactly like that of Powers' Greek Slave, now to be seen at the Corcoran Gallery. In features she resembles Mary Anderson, for whom she has often been mistaken. She has the deep, sonorous voice of Mary Anderson, too, and this and all her other good points she attributes to her obedience to the laws of hyglene. In difficult to describe in autely the various mnovations on established female attire . she insists are necessary to health. But let me frankly say she discards that time honored garment which has the French name, and also that she wears the theirs are trumpery little things not worth speaking of. Mrs. Miller's trousers are respectable, gentlemanly, affairs, but they are very retling. They do not descend below the ankle. She wears no petticost, that other time honored garment which has become synonymous for its wearer, so thoroughy is it identified

with women. "I swear I saw a petticoat," says Sir Peter Teazle, "in Joseph Surface's rooms.

Mrs. Miller's gown is all in one piece, the skirt attached to the body; its weight depends from the shoulders, therefore the tender organs of lungs, heart and abdomen are subjected to no pressure. What a boon to suffering womankind it would be could this change in female attire become thoroughly ingrafted in the babits of the sex! Mrs. Miller differs from all previous female dess reformers in that she advocates the richest apparel that money can buy if one possesses the wherewithal to obtain it. Her husband being in the dress goods business would
